

**2014
FLORIDA YOUTH
SUBSTANCE ABUSE SURVEY**

Leon County

Methodology

- Survey administration: February of 2014.
- Sampling strategy: schools and classrooms were selected to generate statistically representative county-level estimates.
- Final sample size was 1,425 across grades 6 through 12.
- The margin of error is less than 5.4 percentage points for M.S. prevalence rates and 4.7 percentage points for H.S. prevalence rates.

Lifetime and Past-30-Day ATOD Prevalence Rates

Community domain and family domain risk factor prevalence rates for Leon County and Florida Statewide high school students, 2014

**Graph
28**

School domain and peer and individual domain risk factor prevalence rates for Leon County and Florida Statewide high school students, 2014

Key Findings

- Protective factor prevalence rates—opportunities for improvement:
 - Middle school students reported the lowest rates of protection for the *School Rewards for Prosocial Involvement* (56%), *Community Rewards for Prosocial Involvement* (52%) and *Religiosity* (57%) scales.
 - High school students reported the lowest rates of protection for the *Family Opportunities for Prosocial Involvement* (62%) and *Family Rewards for Prosocial Involvement* (62%) scales.

Key Findings

- Risk factor prevalence rates—opportunities for improvement:
 - Middle school students reported the highest rates of risk for the *Transitions and Mobility* (58%), *Community Disorganization* (43%) and *Lack of Commitment to School* (43%) scales.
 - High school students reported the highest rates of risk for the *Transitions and Mobility* (54%) and *Lack of Commitment to School* (46%) scales.
